Total average outpatient spending per visit (RMB)	275	437	-37.1%

Notes:

- The above average inpatient spending per bed-day is determined based on the Company's bills for services rendered to patients, which are being incurred on different dates in the fiscal years ended June 30, 2025 and the Company's incurred date for some medical services may not be the same.
- The considered increase in outpatient visits and significant decrease in some services compared to the period last year are primarily due to: i) a decrease of lower-priced online general services through the Company's internet hospitals; and ii) optimization of the structure of medical services in the online hospitals.

The above operating and indicators are based on the Company's records and are not necessarily audited by the Company's auditors. The operating and indicators may be different from those disclosed in the annual or semi-annual reports. The operating and indicators disclosed in the annual or semi-annual reports shall prevail if there is any discrepancy.

Shareholders and potential investors of the Company are reminded to rationally deal with any information not officially released by the Company, and shareholders and potential investors of the Company should exercise caution when dealing in the shares of the Company.
